

## Potenza FerroCut

### DESCRIPTION

Potenza FerroCut is a neat cutting oil containing an additive package which includes extreme pressure, lubricity enhancing and foam reducing additives. Potenza FerroCut has been formulated for use in neat cutting oil applications where a water soluble type coolant is not recommended

### APPLICATIONS

Recommended for : Broaching, thread rolling, cutting and machining applications on ferrous materials where a soluble type product is not recommended.

### BENEFITS

- Superior Cutting Performance
- Increased Tool life
- Enhanced surface finish
- Cost effective.

Note: not to be used in the presence of water

### TYPICAL PHYSICAL CHARACTERISTICS

Product	Density @20°C	Viscosity @40°C mm <sup>2</sup> /s	VI	Flash Point °C (COC)
FerroCut	0.95	35.0	N/A	225
