

## POTENZA TRACTOR TRANSMISSION 80W

### DESCRIPTION

The Potenza Tractor Transmission Oil 80W has been developed using high quality mineral base oils and incorporates (VII) Viscosity Index improvers ensuring excellent low temperature fluidity with high shear stability. In addition, this product contains an internationally approved additive package meeting both the agricultural and commercial specifications required by the major tractor manufacturers.

### APPLICATIONS

Potenza Tractor Oil 80W is recommended for the hydraulic system, oil immersed brakes, transmissions and final drives, particularly where a common oil reservoir serves the lubrication to the above components.

**Note:** *Not recommended for use in hypoid gear units or as engine oil.*

### BENEFITS

- Multi-purposed capability
- Excellent low temperature fluidity
- Prevents brake “squawk”
- Excellent anti-wear and extreme pressure properties
- Extended equipment life
- Reduced maintenance costs

### PERFORMANCE

- API GL-4
- Case New Holland MAT 3525
- Ford M2C 134D
- John Deere J 20 C
- Massey Ferguson CMS m1143, 1145
